Menti

To what extent do you support the principle of reintroducing Eurasian lynx to the UK?

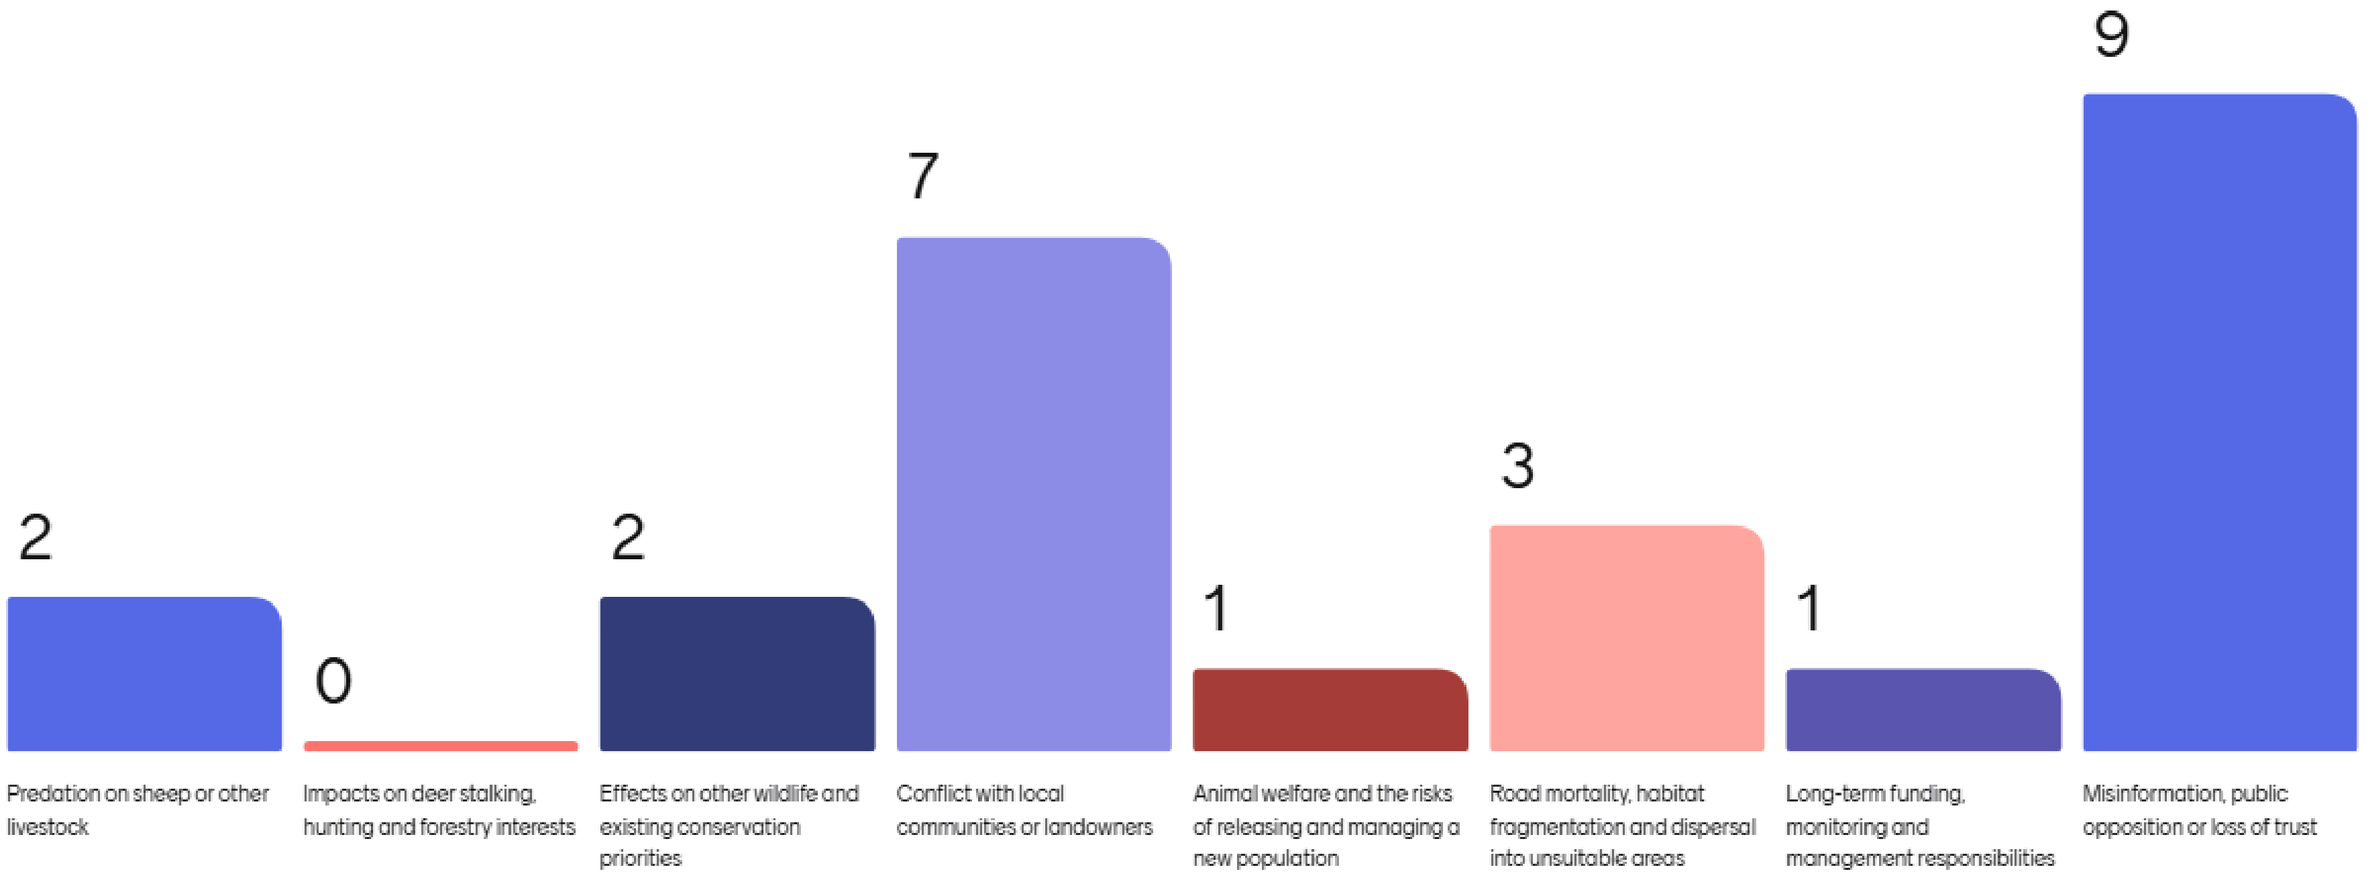

Menti

What do you see as the greatest potential benefits of reintroducing lynx to the UK?

Menti

What do you see as the most significant risks or potential conflicts associated with lynx reintroduction?

Menti

What would need to be in place to reduce conflict and make a lynx reintroduction acceptable to affected communities and land users?

Education

Education drive!

Nature connection through early years

Make sure knowledge is accessible. So the general public is not misinformed

Awareness that they're not going to kill

Education

Education

Education and non ignorance

Good public engagement and monitoring

Education, legislations, conservation

education to farmers

Education for public and land owners/ farmers

Integrating stakeholders and communities within the project not just consulting them

An effective system to reimburse the losses from taken livestock.

Where do you think should be investigated as potential locations for a future lynx reintroduction?

Menti

What is the single most important factor when deciding whether an area is suitable for a lynx reintroduction?

Menti

What is the one condition that would most influence whether you support a future lynx reintroduction in the UK?

Post-release monitoring

Can we ensure that they won't be persecuted?

How well farmers, the public and landowners are consulted about it. I think people would freak out that they would get hurt / killed by Lynx. Everyone needs to understand them and be educated

Free-roaming domestic cats should be kept inside in areas where reintroduction occurs

The environment/habitat is currently stable/suitable for a successful introduction

Public awareness and education

Education

Safety

Change in legislation

They are fully protected from hunting and any harm is met with prossecution

That it doesn't negatively effect the current native wildlife
